

Actuation – The What, The Why, The How

On Tuesday, Milwaukee Valve applications engineering manager Lisa Hall hosted the first of a 2-part webinar overview of the ins and outs of actuating valves. Lisa covered what actuation is, why valves are actuated, and she provided a good, quick understanding how these actuator designs work.

In case you missed it or want to review some of the finer points, the webinar runs about 30 minutes, including an insightful Q&A at the end. You or others on your team can view the webinar by clicking:
