

## THE NEW [HAMMONDVALVE.COM](https://hammondvalve.com) HAS LAUNCHED.

We've fueled our new website with improvements that will make your day a lot easier. Nearly four times the SKUs, including all product options and accessories. Faster navigation to product info, quotes and submittals. And access to BIM data is coming soon!

Each product page now contains the complete info you need: dimensions, drawings, product videos, materials lists, pressure/temperature charts and more.

Boost your customers' confidence. Take a tour through the new [HAMMONDVALVE.COM](https://hammondvalve.com).

---

### **BUTTERFLY BOOTCAMP II – HIGH PERFORMANCE BUTTERFLIES.**

On Tuesday, western regional manager Chris Tarantello provided a deeper examination of high performance butterfly valves, from differences to consider when deciding between a resilient-seated vs. high-performance butterfly valve (double offset or triple offset), advantages and disadvantages, and a discussion of real-life application examples such as hi-rise buildings, steam lines, and data centers and other critical service applications.

If you missed the webinar, you can view it [HERE](#), or pass it along to others within your organization. (Registration required.) This webinar qualifies for CEU credits from ASPE, even if viewed on-demand.
