

## VALVE CERTIFICATION BOOTCAMP

Product certifications establish that a product is approved and meets the material and design demands of an industry specification. The purpose of [Valve Certification Bootcamp](#) is to understand the value of these certifications and to better understand their relationship with product approvals. In this one-hour webinar, attendees will better understand how party testing agencies provide peace-of-mind by confirming that the product design has passed all necessary material and performance tests required for meeting industry specifications. Because the design has been tested and met, the user/installer can be confident that the approved product is safe and reliable.

### UNDERSTANDING APPROVALS

## VALVE CERTIFICATION BOOTCAMP

**TUESDAY, DECEMBER 13 1:00 CST**  
[\(Click here to register\)](#)

Join Lisa Hall on [Tuesday, December 13](#), as she explains the importance and rationale of the Approval system. The webinar will begin at 1:00 (CST) and run for 45-50 minutes, followed by a short Q&A session. Continuing Education Units (CEUs) are available from the American Society of Plumbing Engineers (**ASPE**). A link to the registration page can be found at the [Milwaukee Valve](#) website today or by clicking [HERE](#). Registration is required for Live or On-Demand attendance.
