MISSION STATEMENT

Milwaukee Valve is a leading global manufacturer of high quality valve products to the Commercial, Industrial and Marine markets.

In an ongoing effort to meet the ever-changing needs of our customers and emerging market demands, we are energized by a spirit of continual improvement and product development targeting the consistent ability to provide the highest levels of customer satisfaction. From concept to design, utilizing the best technologies available, our products are engineered and manufactured for proven product performance and will meet the highest standard of environmental and social responsibility.

Our heritage, our people, and our passion is to be the best, most responsive valve supplier, with commitment to both quality and service that has been our hallmark since 1901 and will be the catalyst of our future success. We are focused on achieving improved growth and profitability for the Company, centered on creating value for the customers and stakeholders we serve.
